

Feel GREAT Again!

SF-3

SF-3 is the highest potency joint support product on the market today.

Research strength levels of the top three joint support nutrients in SUPERFLEX-3: Glucosamine, Chondroitin, and MSM, have been combined for total joint health, including cartilage and tissue support and enhanced mobility.

# SF-3

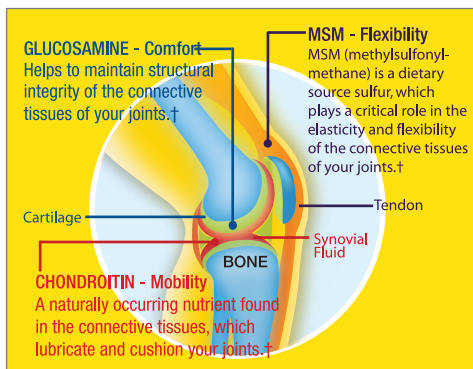

**SF-3 TRIPLE STRNEGTH JOINT CARE FORMULA is the highest potency joint support product on the market today.**

- Only two tablets needed per day
- Three most popular joint support products in one high potency formula
- Promotes healthy joint tissue and cartilage†
- Promotes joint comfort, freedom from stiffness, and ease of movement†

SF-3 TRIPLE STRNEGTH JOINT CARE FORMULA works with your body to naturally improve joint comfort, mobility and flexibility. SF-3 does this by replenishing the body with critical nutrients needed for daily maintenance and renewal of your joints.†

In the last few years, excellent results have however been achieved with a combination of natural nutritional supplements in joint care support. This approach includes a combination of glucosamine and chondroitin sulphate and MSM.

These are substances we already consume and are produced in small amounts in our bodies and as such have no known side effects. There has

been extensive study done on them, which has proved that both glucosamine and chondroitin and MSM help.†
