

HGH-R ISOTROPIN

Key to
Supporting
the *Anti-Aging*
Process.

ISOTROPIN HGH-R 1500MG

ISOTROPIN HGH-R™ was carefully designed to provide safe and effective means of naturally elevating one's GH and IGF-1 levels. It provides precursor nutrients to help boost the body's natural HGH levels - a key to supporting the anti-ageing process.

Human Growth Hormone (HGH) helps restore skin thickness, elasticity, smoothing out wrinkles and rejuvenating hair and nails. It promotes the burning of fat by making it available to the body as fuel while increasing muscle mass. HGH also helps enhance sexual function in both men and women. HGH revitalizes the immune system, assists in reducing the risk of heart disease by lowering blood pressure and improving blood cholesterol profiles.

Here are a couple of the amazing benefits that Isotropin™ HGH-R users may experience:

- Weight Loss
- Restore Youthful Skin
- Decrease Weight
- Increase Energy & Endurance
- Build Muscle
- Strengthen/Repair Immune System
- Natural Anti-Depressant
- Improve Sleep
- Improve Vision/Hearing
- Increase Libido
